

## DYLON HAND DYE INSTRUCTIONS

### DIRECTIONS

1. Weigh dry fabric. Wash thoroughly & leave damp.
2. Using rubber gloves, dissolve dye in 500ml warm water.
3. Fill bowl/stainless steel sink with approx 6 litres warm water (40°C)
4. Stir in 250g (5tbsp) salt. Add dye & stir well.
5. Submerge fabric in water.
6. Stir for 15mins, then stir regularly for 45mins.
7. Rinse fabric in cold water. Wash in warm water and dry away from direct heat & sunlight.

### HELPFUL HINTS

- You will need 250g salt
- 1 pack dyes up to 250g fabric (e.g. shirt) to full shade or larger amounts to lighter shade
- Suitable fabrics: Cotton, linen and viscose. Wool, Silk, Polyester/cotton and polyester/viscose mixes will dye to lighter shade
- Not suitable: Pure polyester, acrylic, nylon & fabric with special finishes
- Wash separately for first few washes to remove any excess dye
- Please note: Colour mixing rules apply (e.g blue on red gives purple)
